

**National Institute for
Health Research**

MCRN/arc Paediatric Rheumatology CSG

Monday 22nd March

11.30 am – 4.30 pm

**Leolin Price Lecture Theatre
Institute of Child Health
Guilford Street
London**

**INVITE TO THE
FIRST CSG MEETING FOR**

**NON-INFLAMMATORY MUSCULOSKELETAL PAIN
(INCLUDING HYPERMOBILITY AND PAIN SYNDROMES)**

The MCRN/arc Paediatric Rheumatology CSG has several specialist groups and it is felt that a group that explores the research priorities into this group of paediatric conditions is really important.

This is the first meeting and will be an initial sharing of ideas and development of the group.

The CSG's role is specifically to help with setting research agenda's and supporting research applications.

This group can only be successful if people attend and for this day we will have a few short presentations about specific projects and ideas and then discuss how the group would like to develop.

To confirm attendance and volunteer a presentation please contact me on

maills@gosh.nhs.uk

Thank you

Sue Maillard, on behalf of the CSG
